Moving forward will require aligning existing district initiatives and programs with the priorities in the plan and letting go of those that contribute to the likelihood of implementing the plan. New state requirements of the Local Control Accountability Plan will need to be addressed as the plan is brought to life at the start of the 2014-15 school year. Between the adoption and the plan launch, there is much work to be accomplished. Each objective will be carefully analyzed for budget impact, sequencing or critical path analysis and for implementation timing. By spring of 2014, the recommendations in the plan will need to come back to the Board for prioritization over the five years of the plan. Each objective will be brought back as a project plan with data for the current status, specific targets for accomplishment within the timeframe of the plan, action steps, accountability assignments and a schedule for reporting to the Board and community. Each plan will include the implementation steps, the measures, and an evaluation component with the opportunity for the Board to adjust to new conditions and opportunities as they present themselves.

Recommendation:

That the Board accept the final strategic plan report from Capital Impact/Th3rd Plateau and direct the Superintendent to present a recommendation
